SKILLS

- Oracle & Telecom Technologies
  Oracle ASAP 7.3, Oracle WebLogic Server 12c, Oracle BRM (FList exposure & integration understanding), Oracle Design Studio (Cartridge Development & Deployment)
- Telecom & Network Exposure
  CATV Provisioning (DVB4 / DVB5), IPTV & DRM Provisioning Workflows, Conditional Access Systems: Cisco, Nagra, NDS, NSTV, Gospell, Safeview
- Programming & Integration
  Java, REST APIs, XML / Web Services, Spring Framework ,Frontend(HTML,css ,JS) ,Shell scripting
- Version Control
  Git, GitHub, GitLab
- Database
  Oracle Database 19c (SQL / PL-SQL)

LANGUAGES

- English (Fluent)
- Hindi (Fluent)
- Odia (Fluent)

EDUCATION

2020 - 2022
NORTH ODISHA UNIVERSITY
Master of Computer Application

2017 - 2020
FAKIR MOHAN UNIVERSITY
Bachelor of Business Management

2015 - 2017
CHSE ODISHA
+2 Science

PERSONAL PROFILE

Oracle ASAP Developer with 3+ years of experience in telecom provisioning across CATV, IPTV, and ISP domains for Hathway Cable & Datacom. Experienced in Oracle ASAP 7.3 cartridge development, order troubleshooting, and production support across multiple network technologies including DVB platforms and CAS systems (Cisco, Nagra, NDS, Gospell, Safeview) along with DRM solutions. Skilled in WebLogic, Linux, Java, and SQL with strong exposure to enterprise telecom environments, client-facing operations, and shift-based production support.

WORK EXPERIENCE

SOFTWARE ENGINEER | 2025 - NOW
HY Tech & Consulting Pvt Ltd
Project : Hathway Cable & Datacom Ltd, Mumbai (On-site)

- Developed and deployed Oracle ASAP 7.3 cartridges using Oracle Design Studio.
- Troubleshot failed provisioning orders through log analysis and queue monitoring.
- Monitored ASAP components including SARM, Control Server, and Network Elements.
- Supported provisioning across CATV and IPTV platforms (DVB4/DVB5).
- Worked with multiple CAS systems including Cisco, Nagra, NDS, NSTV, Gospell, and Safeview.
- Managed DRM and IPTV provisioning workflows.
- Performed production support activities, including service restart, health checks, and performance monitoring in Linux environments.
- Managed WebLogic deployments (EAR/WAR/JAR) and environment configuration changes.
- Supported integration between Oracle BRM and ASAP provisioning systems.
- Resolved production incidents within SLA timelines and coordinated with client teams for deployment and issue resolution.

SYSTEM EXECUTIVE | 2023 - 2025
Jhaishna Technologies
Project : Hathway Cable & Datacom Ltd

- Worked on Oracle ASAP provisioning platform for telecom service activation.
- Supported cartridge development, testing, and deployment activities.
- Performed order troubleshooting and log analysis for production issues.
- Assisted in monitoring system performance and resolving operational incidents.
- Worked with Java and SQL for provisioning logic enhancements.
- Supported Linux environment monitoring and operational activities.
